Executive Summary

Aspiring full-stack developer with a solid foundation in web development technologies. Familiar with both client-side and server-side development, including database integration. Quick learner with a strong interest in building real-world applications and improving coding skills.

Education

University College of Engineering, Panruti 2022 – 2026

Bachelor of Engineering in Computer Science

CGPA: **8.0 / 10**

Arunachala Matriculation Higher Secondary School

Class XII 2022

Percentage: **82.7%**

Class X 2020

Percentage: **67.8%**

Technical Skills

Languages: Java, JavaScript, Python (basic)

Frameworks & Libraries: React.js, Node.js, Spring Boot

Web Technologies: HTML, CSS

Databases: MySQL, JDBC

Tools & Platforms: Git, GitHub, Docker (basic)

Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems

Soft Skills: Problem Solving, Communication, Team Collaboration, Leadership, Time Management

Projects

Online Banking Management System

Tech stack: Java, Spring Boot, JDBC, HTML, CSS, JavaScript, MySQL, REST API.

- Developed a **full-stack banking web application** using Java Spring Boot as backend, MySQL as database, and HTML, CSS, JavaScript as frontend.
- Built **secure RESTful APIs** for customer login with account number and PIN authentication using JDBC Prepared Statement and MySQL.
- Implemented **money transfer feature** with real-time balance validation, receiver verification, and automatic transaction logging in database.
- Created **transaction history module** showing all sent and received transactions with color-coded amounts and timestamps.

- Improved transaction processing speed by 20% through optimized SQL queries in Online Banking Management System.

E-Commerce Web application - Frontend Development

Tech stack: HTML, CSS, JavaScript

- Designed a responsive **e-commerce frontend** with product listings, shopping cart functionality, and interactive **UI components**.
- Implemented mobile-friendly layouts using **CSS Grid** and **Flexbox**.
- Designed dynamic product cards, navigation menus, and user-centric interfaces to enhance shopping experience.

Smart Campus Management System

Tech stack: Java, Spring Boot, MySQL, HTML, CSS, JavaScript

- Developed a web-based Smart Campus Management System to streamline student, faculty, attendance, and course management.
- Implemented **CRUD operations**, user authentication, and centralized data management using **Spring Boot** and **MySQL**.
- Designed a **responsive interface** for efficient administration and improved campus operations.

Internship & Experience

Web Developer Intern – Macx Technologies 2025

- Developed a full-stack e-commerce web application, implementing product listing, cart, and order workflows.
- Designed REST APIs and database schema to handle structured data and user interactions efficiently.

Placement Training – NAANDI Foundation 2025

- Practiced aptitude, communication skills and interview preparation.

Achievements

- Certified in **English Typewriting** with proven proficiency in typing accuracy, speed, and professional document preparation.
- Certified in attending interview preparation, communication skills with NAANDI Foundation.
- Volunteered as a technical lead for college fest web and technical events.

Interests

- Chess (strategic thinking and problem solving)
- Technology exploration and staying up-to-date with latest trends
